

## **AMENDMENTS TO THE CLAIMS**

Please amend the claims as follows:

1. (Currently Amended)      A method for transfilling gas canisters on-site comprising:  
  
    transporting a transfilling station to a desired transfilling site, wherein said  
transfilling station is contained in the footprint of a mobile vehicle;  
  
    attaching gas canisters to said transfilling station;  
  
    inspecting and evacuating said gas canisters;  
  
    vaporizing and compressing a gas and directing it into said gas canisters;  
  
    disconnecting said gas canisters; and  
  
    transporting said transfilling station from said transfilling site.
  
2.      The method of transfilling gas canisters on-site of claim 1 wherein said  
  
    gas is medical oxygen.
